

We are glad to offer in-house shipping by UPS for most decorative arts and framed items. If a shipping quote is included in your invoice, you may disregard the following. Many invoices will include UPS quotes. Some quotes for invoices with multiple items may take an additional 1-2 business days to compile. The client is also welcome to make his or her own shipping arrangements.

If you have purchased an item that we cannot ship by UPS, require additional accommodations such as crating for high value items, or are shipping to an international location, please see the below list of preferred shippers.
